There are many things to do outside of class at Elon. Whether it be going to a weekend gathering with friends, or catching an "informal" volleyball game — you can do more than just study. You might even consider joining a club or organization. It's a great way to meet a lot of new people. Another suggestion is staying at Elon at least ONE weekend a month (being that Elon is known to be a suitcase college). Many students go home on weekends because they think that nothing goes on at a small college of less than four thousand students — but they're wrong! There's plenty to do. There's almost always some form of a party somewhere. You could also just hang out with your neighbors — surely they go SOMEWHERE on Friday and Saturday nights. If nothing else, the Light-house Tavern is right down the road — and there's always someone there. But don't worry — for those of you who pack up and leave every Friday afternoon, there's plenty to keep you busy during the week. You can sign up for an intramural team of just about any sport or just have a late night chat with friends, along with a large pizza and a two liter Coca-Cola. For those of you who are more serious-minded, there are a number of clubs and organizations that welcome new members that are lots of fun! Some of those include Student Union Board (S.U.B.), Phi Psi Cli (yearbook), Habitat for Humanity, and many others — even honor societies for those who excel academically. All you really have to do to have fun at Elon is just open your door, look around, and just jump right in! There is more than you think going on around here — so much that you couldn't possibly do it all in four (even five or six) years. So get started — the fun is just beginning — WHAT ARE YOU WAITING FOR?

it's what YOU make it!

It's important to get involved in the activities around the campus. The person who meets new friends, goes to events sponsored by the college, and participates in organizations will definitely enjoy his/her stay in college. On the other hand, the person who sits in his/her room and only leaves to feed their face will find their time in college a complete bore. College life is what you make it. It's important to talk to people and find out early what is available to fill each individual's needs.

Simply meeting new people is a challenge, especially for freshmen who obviously don't know many people. There are several areas around Elon that make it possible to meet new people. Areas such as classes, athletics, organizations, parties, and depending on the location of housing, people are easy to find. Elon makes it possible for a new student to feel comfortable to walk up and talk to another

student with ease.

Elon is unique in that its size allows students to eventually know just about everyone. The smaller college also draws the students closer together for both the good and bad times. For a college like Elon, it is easy to build spirit which is essential to make competitive teams successful. Spirit is generated through the energy of the fans that attend the functions.

Student Government is an ideal area for those with leader skills. Authority along with creativity is necessary in Yearbook, Newspaper, and involvement with the Residence Hall Association. Energy works well when combined with organization and can lead to success in any area that is chosen to participate. Spirit, energy, and creativity are qualities in each Elon student. So, make the best of college!

Enjoy

Student Life at Elon. What exactly does that mean? Well, there are a wide variety of organizations and campus wide events that are all right on campus, geared toward all types of people, and an inherent part of what makes Elon the diversified school that it is.

If it's sports or exercise that you're interested in, Elon has an intramural program and various exercise classes that are popular and involve the entire school. Just last year, the Wellness Center was created, which has aerobics classes and nautilus equipment. This is located in Chandler.

Events that get the whole campus involved are Parents Weekend, College Coffee, organizational fairs, Homecoming, spring convocation, Special Olympics, government elections,

Spring Fling, or just hanging out at the fountain between classes.

People can be seen everywhere on campus — hanging out at The Grille, The Back Door, riding bikes, studying by the lake, conversing with a professor, or going out to the Lighthouse on the weekends. Elon is a friendly school. People know who you are and always have a smile on their faces. You can always hear people sharing a story about their weekend or talking about next week's test. Student/faculty interaction is excellent and what makes this school unique. You get individual attention from faculty and administration, unlike at larger schools. You're not a number at Elon, you are a very important person.

All types of students attend Elon. Not only are you exposed to different

professors and academia, but different students, with different backgrounds and interests. Part of college is not only excelling at your studies, but developing life-long relationships. This is possible at Elon, and your college years will be all the richer if you try to be a well-rounded student.

There are so many different paths you can take at Elon — join one fourth of the student population and become part of one of Elon's 15 national fraternities and sororities, get involved in Student Government, Elon Volunteers, the Marketing Club, or join the WSOE staff. There is something for everyone at Elon. You have great potential at Elon College, and the resources available to you to make the most of your education. SO GET INVOLVED!!

reaking up the monotony

Students need a break from the stress and pressures that are created from attending classes every day. Organizations such as SUB and the Greeks offer great escapes from the real world of studies. From talent shows to Rush parties, students are exposed to several activities that break up the monotony.

Elon students have found their taste buds need a change from the average meals offered daily in the dining halls. Some places that are popular for afternoon and evening meals are Applebee's and Brown & Co. Another popular restaurant where students can be found relaxing and enjoying their favorite all American meals at anytime is the Waffle

House.

Another activity that breaks up the monotony of student life besides eating outside the campus is the idea of gathering with friends around the lake which creates a harmonious atmosphere. Meeting at the fountain and talking about upcoming events with friends is a positive aspect of the campus. Retreating from the fountain and heading to any number of destinations such as the beach or the Lighthouse is a favorite pastime to clear the heads of every student.

Elon campus offers wonderful get-a-ways that vary to relate to each individual's personality.

g

et involved . . .

There are some students that just sit around in their rooms and complain that there is nothing to do. Well, they must not be looking hard enough, because there are over 80 clubs and organizations on campus! And there is a club or organization to fit each and every personality. For the journalism majors (or those who just like to write) there is the college newspaper, yearbook, and literary magazine. And for those who enjoy sports, there is intramural sports, as well as organized sports clubs. Then there are honor societies for almost every major.

Another way to get involved is to help out your fellow

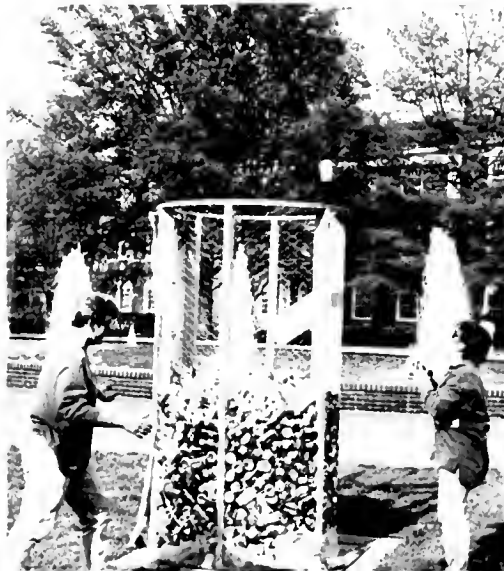

man by working to improve the community. You can help build houses on Saturday mornings, or let your fellow brother know the dangers of alcohol abuse. And to get really involved, you can hold an office in one of these clubs or organizations. In doing this, you have the opportunity to get others excited about their school.

The benefits you receive from getting involved are numerous. Not only does belonging to an organization look good on a résumé, but it better prepares you for the work world. It allows you to work with others — and discover your strengths and weaknesses. So do yourself and your community a favor . . .

We performed the program once for 50 people last year ... this year we performed it twice for 120 people at each. This was an intense program."

United States Senate candidate Harvey Gantt extended his campaign to Elon College this fall, bringing his views on a variety of issues to both students and staff. Among the topics Gantt discussed were his top priorities: education and our environment. Elon College observers responded in an enthusiastic and positive way to Gantt's message, and supported him with signs and energetic cheering.

Le Ly Hayslip

Le Ly Hayslip, author of *When Heaven and Earth Changed Places*, gave her emotional and dramatic story of her plight from Vietnam to the United States at this year's Fall Convocation. Hayslip escaped during the Vietnam conflict, leaving her home and family. Her presentation enthralled Elon College listeners. Hayslip has also sold the movie rights to her book so others may experience the trauma and feelings she lived through just a few years ago.

Students enjoy the rigorous aerobics class offered at the Wellness Center every week.

... where do I go?

The possibilities for activities are endless at Elon. There is always somewhere to go, something to do, or someone to see. Students can find both academic and athletic events to enrich their surroundings, and they gratefully grasp these opportunities.

One place where students have chosen to spend more time is the recently developed Wellness Center. Organized aerobics and toning classes are available for weekly use, plus scheduled hours for open work-outs on weight equipment.

Elon's College Coffee is another choice for cultural enrichment. Guest speakers, pep rallies, voting, and organizational club meetings are just a few of the things that are going on at

the Coffee.

Fall Convocation also gives students exposure to special speakers and knowledge of the world surrounding Elon.

The Fine Arts Theater and Yeager Recital Hall offer an unlimited spectrum in arts and dramatics. Such activities include plays, dance companies, laser-light shows, and many other cultural events. Students and staff members can also attend poetry readings, listen to guitarists, or stroll through the halls and admire the artwork.

Therefore, it is plain to see that action is never hard to find on the Elon College campus. Students should choose to take full advantage of all their resources.

h omecoming spirits rise

Some changes occurred during this year's Elon Homecoming events. With its sixties theme, for the first time Homecoming did not only include Greek organizations but there were many other organizations involved. Residence areas, Habitat for Humanity, the Black Cultural Society and S.U.B. were a few of these new groups.

The fulfilled festivities began with the judging of the banners. Each organization used their creativity and artistic abilities to create a banner with the theme. The banners ranged from tie dyes of Woodstock to a version of the first Peanuts comic strip.

The skits were held next, where each group got a chance to remember the sixties in their own special way. Some popular skits dealt with war, Woodstock, American Bandstand and classic musicals.

As Homecoming day crept up, organizations could be found constructing a float for the morning parade. Buses to Woodstock, a Chuck Converse tennis shoe, and the Berlin Wall were a few of the magnificent floats seen.

The parade started what turned out to be a gorgeous day at the stadium.

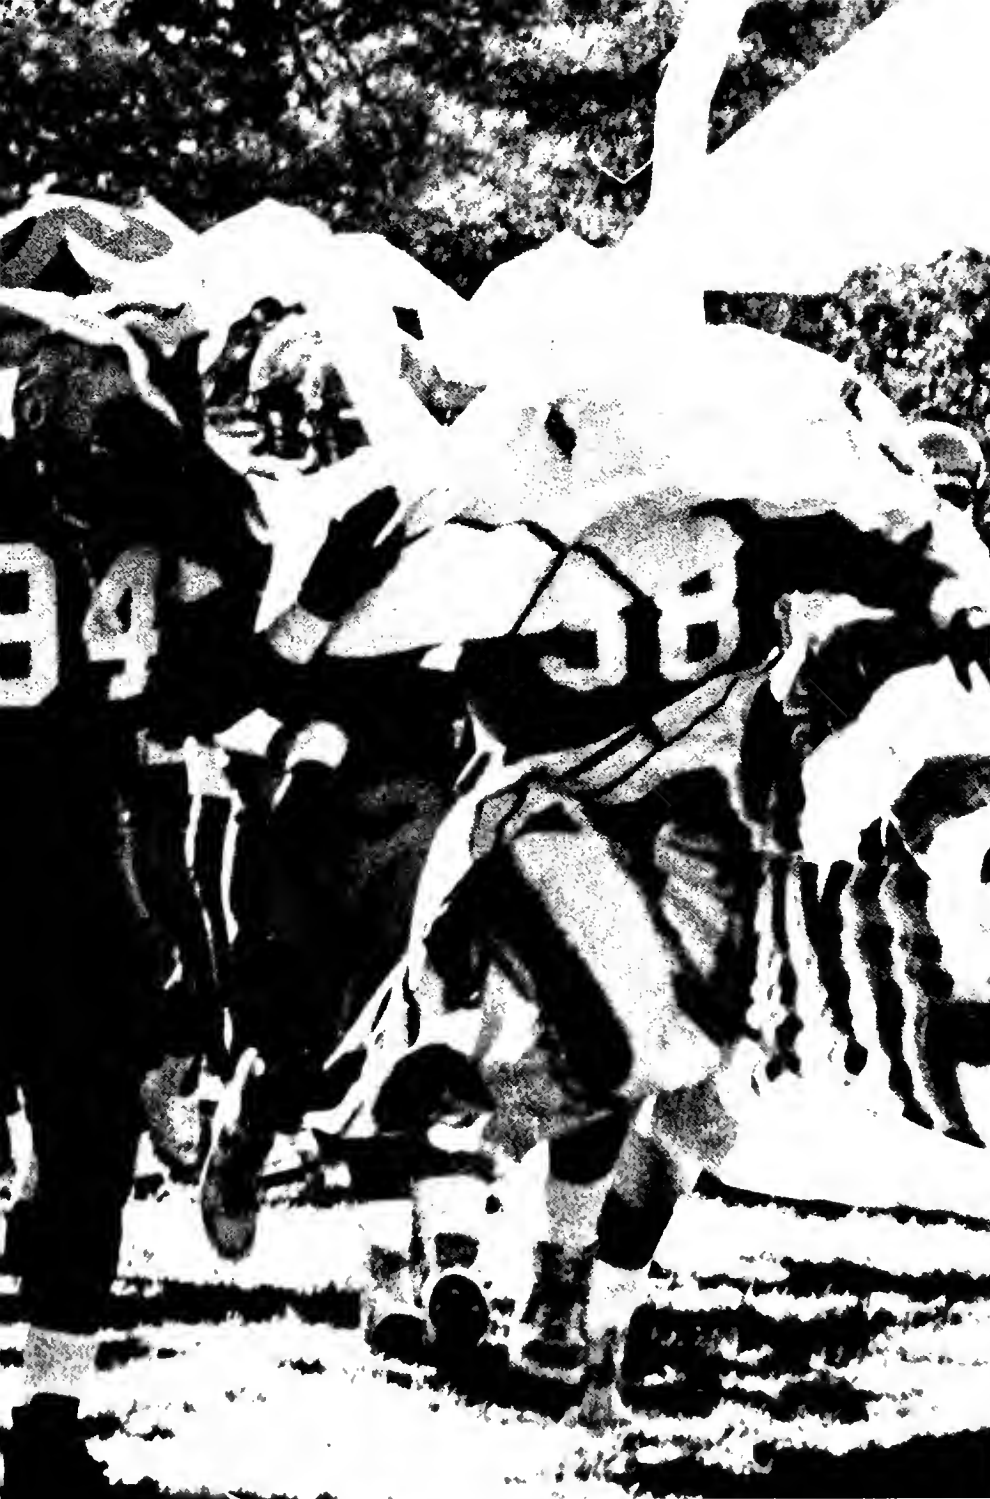

As the Fighting Christians burst onto the field, the excitement continued. Ready for a victory, the crowd, the cheerleaders, and the players showed their spirit throughout the first half. Of course, all were waiting the arrival of the halftime activities and announcements.

Each Homecoming queen candidate was introduced and escorted onto the field to await the crowning of the queen. First, though, was the announcing of the winners of the previous events. Finally, it was time to hear the results which ended in third place going to Tri Sigma Sorority, second place went to a new edition to Homecoming, East Area, and the 1990 winner for another year the crown went to Alpha Omicron Pi.

With the announcement of the winners completed, fans watched as the Fighting Christians succeeded in pulling out a Homecoming victory. Even though the day came to an end, all the hard work and effort put in by all the organizations was not forgotten.

Summing up the week

1990 homecoming queen

Homecoming 1990 was a wonderful week for everyone involved. All of the organizations put everything they had into each competition. With 17 organizations, there were so many more people participating this year — therefore it was hard to know how it was going to turn out. That's why Alpha Omicron Pi winning for the third time was such a thrilling surprise. "I felt very honored to be out there representing Alpha Omicron Pi. It took the whole sorority's participation, and our hard work paid off. It was an exhilarating feeling that I and Alpha Omicron Pi will never forget."

There are many organizations at Elon that are geared towards every type of student and help develop students extracurricular talents. There are service and social groups. It is recommended that all students become a part of at least one group to broaden their perspectives and ideals. Participation in one or more of these groups also looks great on resumes. Extracurricular organizations are also an excellent way to meet new people and make friends. It enables you to make a difference in your college and its community.

Some of the different organizations that Elon offers are:

WSOE — "Sounds of Elon" — Elon's radio station is managed and operated by students. The station offers opportunities for students in any major to get involved. Following a progressive format, WSOE promotes new bands such as "Deee-Lite" and the "Sundays." On weekends, WSOE has specialty shows. The station is managed by Rick Snyder and their advisor is Don Grady.

CONSTRUCTION COMPANY — composed of Elon's most talented dancers. Auditions are held each semester from which about 25 students are selected.

YOUNG DEMOCRATS — represents Elon at Democratic rallies and conventions, and were busy this year campaigning for Democratic candidates and arranged for Harvey Gantt to speak at a college coffee before a crowd of over 1000 people. They also helped out at the Alamance County Democratic Headquarters. President is John Denning and Terry Williams is their advisor.

ELON COLLEGE REPUBLICANS — promote standards and philosophies of the Republican party. This year, the Republicans were busy campaigning for Jesse Helms.

BACCHUS — promotes alcohol awareness to students. Bacchus sponsors activities throughout the year such as "mocktail" socials and other non-alcohol related events to encourage students that they can have fun

without alcohol being involved.

STUDENT GOVERNMENT ASSOCIATION — comprised of two branches — the Executive Branch and the Legislative Branch. These student leaders support nearly every phase of student life, and fund SUB and the Liberal Arts Forum. Scott Frail is President, Carter Smith is Vice-President, and Cathy Miller is Treasurer.

These are just a few of the organizations at Elon. Other important groups include the Residence Hall Association, Student Union Board, Epsilon Sigma Alpha (service organization), Habitat for Humanity, Women In Communications, Phi Psi Cli (yearbook), Collonades (literary magazine), and The Pendulum. Go to the meeting to see what interests you, and most importantly, **talk** to people about these groups. Take an active interest in Elon's extracurricular activities. They will make your years at Elon all the more richer and help you later in life.

The Pendulum

The Pendulum, founded in 1974, is a 12-16 page weekly publication published by Elon College students. It covers areas such as news, features and sports. This year, a new addition to The Pendulum is a weekly, two-page section covering world and nation-wide news, as well as inter-collegiate news. This service was made available to The Pendulum in connection with a USA Today wire service. The Pendulum has a circulation of 2,600.

The Accounting Society brings in professionals from the field to find out what it is really like in the "real world." The office politics, the correct questions to ask, and the correct responses are all very necessary techniques to learn and are not taught in the classroom. Professors support the society because they, too, realize that a real job and hands-on experience cannot be taught in college.

Alpha Psi Omega

Alpha Psi Omega explores all aspects of theatre, from production design to back-stage work. Participants in the group do not have to be on stage but they must support the arts. Attending meetings as well as recitals and productions are part of the job. This is the perfect chance for students to experiment with their talents and get valuable experience under their belts and on their resume. This year Alpha Psi Omega helped with the production of the fall musical *Man of LaMancha*.

Phi Alpha Theta

Phi Alpha Theta is one of the strongest honor fraternities at Elon College. It is dedicated to the achievement of higher standards in the field of history. Membership is extended to both men and women who have excelled in advanced studies of history. Two popular events that this organization sponsors are an annual book sale and a scholarship fund awarded for historical essay writing to students.

Alpha Chi

Alpha Chi is the prestigious national honor society of Elon College. The requirements to be nominated into Alpha Chi are difficult, thus making it more exclusive. After becoming a junior and acquiring a 3.67 grade point average, you can be nominated and voted in by the faculty. Initiations are twice a year, once in the fall and once in the spring. Alpha Chi members are proposing a tutoring program for functionally illiterate adults from the Alamance Community College and Elon College area.

Kappa Delta Pi, an international honor society in education, works to promote excellence in and recognize outstanding contributions to education. Kappa Delta Pi — Sigma Gamma Chapter of Elon College is composed of faculty, staff and students. Eligibility into the chapter includes junior or senior standing at Elon College, completion of at least twelve semester hours of professional education courses and a 3.25 GPA. The Sigma Gamma chapter selects initiates in the spring and fall of each academic year. The initiates are tapped and given ribbons to wear symbolizing to others that they are going to become members. Kappa Delta Pi provides its members with professional literature, leadership and educational conferences and academic scholarships. The Sigma Gamma chapter sponsors various academic and social events throughout the year.

Experience

The Greek System at Elon has a long and exciting past. Because of its size, Elon's Greek organizations are close, and share a special bond not existent at larger schools. What exactly does it mean to "go Greek"? Well, the members of these organizations share special bonds, common interests, and similar goals, while pursuing their own interests, whether it be academics, sports, the arts, or student government. What makes these organizations unique are the common interests their members share, along with their individual dreams.

What is Greek Life at Elon like? Each group has a national philanthropy they raise money for, community projects they contribute to, rush parties they plan to meet prospective organizational members, and social formals and parties they go to. To give you an idea what some of the organizations do specifically each year, Sigma Chi has their annual Derby Days, which is a fundraiser for their philanthropy. Kappa Sigma has their annual See-Saw-a-Thon, which involves all of the Greek organizations and is a lot of fun. The annual Phona-thon is another fundraiser. All pro-

ceeds go to the college's annual fund. Besides fundraisers, greek organizations have social mixers between sororities and fraternities, which are a great outlet after a hard week of classes. This is a good way to stay in touch with friends in other organizations because people are so busy.

Creativity and imagination go into rush parties to make them fun and entertaining to prospective members. Ice cream socials, tie-dye parties, pizza parties, cookouts, and halloween parties are some of the rush parties held in the past. A lot of work goes into these functions to welcome new students to not only their organization but to Elon.

One of the most exciting events that involves all of the Greek organizations is Greek Week, which is like the Olympics consisting of all types of events such as tug-of-war, track events, bike races, flag football, volleyball, swimming, and for the non-athletic oriented people, there are the egg-toss races, trivial bowl, and one of the favorite events to watch — the pizza eating contest. The winning sorority and fraternity get a trophy, and public recognition of their victory. Greek Week is one of the most exciting events for

Greeks in the Spring.

David Atkins is the administrative head of all Greek relations. His office is in Long in the Campus Activities office. He is qualified to answer any questions new students might have about Greek Life, and can offer a non-biased view of anything you might be unsure of.

Greek Life at Elon is a rewarding and fulfilling experience that will stay with you long after you leave Elon. The best way to find out if Greek Life is for you is to get to know the members of the organizations. Then you can decide if going Greek is for you. So check it out!

ledging your loyalty

Before one joins a fraternity or sorority, there is a six week pledging period. This time enables those prospective members to learn the history of the fraternity or sorority. But more than that, it's a time for the pledge class to get to know one another as well as the brothers/sisters of that organization. Pledging does not

allow for a lot of free time, but it is all worth it in the end, because this period shows a pledge how much time and energy goes into being a good brother or sister. The bonds that are made during this pledge period will last a lifetime ... so will the friendships.

Members of Alpha Kappa Lambda and Alpha Omicron Pi enjoy their mixer at the Sheridan Hotel.

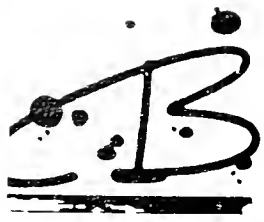

Good greek relations are imperative to a smooth-running Greek system. Mixers are a great way for different organizations to spend time together and have fun. There are many types of mixers. Some are just for fun, such as Halloween costume parties, graffiti parties, 50's parties, etc. These allow time for laughing, dancing and lots of fun. Then there are mixers,

such as Toys for Tots, when a fraternity and sorority get together to raise money for a good cause. Other types of mixers that build strong relations are when all of the sororities get together for a Potluck Dinner. Likewise, Fraternities gather for 'brotherhood relations'. These mixers are important for Greek life, because "we're all in this together."

reek relations

rotherhood

AN ASSOCIATION OF MEN UNITED IN A COMMON INTEREST, WORK, CREED, ETC. As members of a fraternity, the young men share not only a friendship, but a commitment to the fraternity. They party together, visit one another on breaks, and take vacations together. But 'brotherhood' goes much deeper. They all take pride in their fraternity

and work together. For example, when Greek Week comes around in the spring these men pull together to be #1! They also do community service projects and fund-raisers, such as car washes, to better society. Therefore, it is easy to see why these men develop such close relationships. 'Brotherhood' goes much deeper than fun.

takes work

Most people think that Greek organizations are just social. But one of the main objectives of a Greek organization is community service. This goes far beyond adopting a highway or putting in hours at the Elon Home for Children. All Greek organizations raise money for needy causes. And a lot of times, more than one organization works together for the good of the cause. But each Greek organization has its own philanthropy which it works diligently for all year.

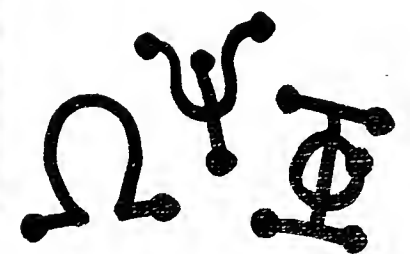

However, the word "work" should not have a negative tone. Because Greek organizations have fun working together. When you're with friends it is not like work — but a responsibility.

There is nothing like good, fun competition. And as far as fun competition goes — it doesn't get any better than Greek competition. Greeks compete in various different intramural sports (basketball, flag football, waterpolo, etc.), Greek Week, Derby Days, and Homecoming.

Intramural competition goes on year 'round. And it is fun to see familiar faces season after season. This is a great way to get to know members of different fraternities

and sororities.

Then there is Greek Week and Homecoming. These two competitions only occur once a year — so they are like on-going competitions. Because once an organization wins, they then try to defend their title the following year.

All of the competitions listed above are a great way for Greek organizations to get to know one another better, as well as spend time and have fun with friends.

Formals

Some of the best memories of college are formals. This is a time for getting all dressed up, lots of laughs, and dancing all night long. The two big formals are Homecoming and Spring Banquet. At Homecoming, fraternities have tail-gate parties, take buses to the football game and have a dance that night. This is a time to visit with Alumni and show school spirit. The other big formal is Spring Banquet. A weekend full of laughter and good times. For seniors, this is their last chance to party

with their brothers and sisters.

Other popular formals are Alpha Omicron Pi's Rose Ball, Phi Mu's Destination Unknown, and Christmas and Valentine's formals. These formals are a great break from the monotony of school work. They also provide organizations time to dance away the stress that has built up over the year.

These formals are the highlight of the year, and they are talked about for many months.

What a neat way to show your Greek spirit — the human ΑΩΠ.

Tricia Ann Ricco cuddles the Alpha Sigma Phi mascot.

Left to Right: Brent Norfleet, Steven Holeman.

Browsing in the Greek Corner of the Campus Shop, Jon Slaunwhite picks out a Sigma Phi Epsilon key chain.

Seeing Greek spirit at Elon College is not hard to do. People are always wearing letters, drinking out of cups bearing fraternity or sorority names, chanting cheers, or having a sticker on their car that shows off their Greek pride.

But the spirit is at its best during competitions between Greek organizations. Many members of each organization show up in letters and

cheer their team on to victory — pride lingers in the air.

However, Greek spirit is more than just letters and chants. It is a pride of belonging to an organization which you work hard to make #1! And the more you give to an organization, the more pride and spirit you feel. So it's easy to see that folks must feel pride before they can show their spirit.

PEOPLE — this is what Elon is all about. People walking around campus, people eating in McEwen and Varsity Grille, people hanging out at the fountain, participating in class discussions, working on projects, and people riding bikes. Part of what makes a small school like Elon so special is the quality of relationships that are developed. Your college years are one of the greatest periods of transition in your life. As you go through your years at Elon, you will notice this change in yourself and your friends. These changes can be thought of in four stages:

FRESHMAN YEAR — This is a year of big changes and exciting times. Many have left home for the first time, and you are becoming adjusted to college life. You meet all types of people — in your dorm, in classes, at parties and in the community. For some, freshman year is synonymous with freedom and these people have a ball. For others, this year is hard, maybe because of homesickness or just due to the enormous adjustment college life really is.

But to everyone, this year is new and fresh, where you are establishing yourself as a young adult and getting adjusted to your new life.

SOPHOMORE YEAR — You've made it through your first year. As a sophomore, you are starting to think about what kind of major that might interest you, you can't go out as much as you did the previous year, and you basically have to buckle down. Classes get harder, professors demand more, but by now you've met a lot of great people and feel more at home. Your parents seem to become less important in your life, and you look ahead to your junior year thinking, "Where has the time gone?"

JUNIOR YEAR — This year you're working on your major and starting to itch a little about getting out of Elon. But most juniors feel completely at ease socially, being most concerned with getting an intern and finding a job. Friends have either left or graduated, and you feel like you know all about Elon. One more year to go. Can you

believe it?

SENIOR YEAR — This is it. Your last year at Elon. You're trying to finish those last few courses while counting down the days to graduation at the same time. The future seems scary and exciting all at the same time. You've had some of the best times of your life and look back at your years at Elon with a smile. You're ready to leave the place that's been your home for four years, but sad at the same time. Resumes are all sent out, job interviews set up, and the nights out with friends seem more precious. Very soon your life will change all over again.

Everyone goes through this process differently of course, but what is so important in college is not only your classes and professors, but the quality of friendships that are developed. Some of these people you will be close to all of your life, some will fade away, but all the people you know at Elon will somehow affect the rest of your life.

One of the many hangouts for Elon students on weekends and after class is the Lighthouse Tavern. Students can be found playing pool, foosball, or just talking with friends.

The Lighthouse is also used by many organizations as an outlet for their fundraisers, and once a week, a band performs there.

This tavern is among the most convenient hangouts for students because of its close location and familiar atmosphere.

Cold!

When the weather gets cold — watch out! Going from class to class is a major catastrophe when the wind is blowing 30 miles an hour or more. The weather in North Carolina is usually pleasant, so students have to be on their toes to be prepared for the unpredictable cold days.

... a word that students shiver at — library. Because when students make a trip to this three-floor building, time just flies out the window. You can search for hours for a single source, and when you find it, there is no way to incorporate it into your paper. But thank God for librarians who are always at your side before you pull your hair out. Elon's librarians also take time to teach classes on how to use the available sources. Getting individual help, that's one asset of a small school.

A popular place for vacation among Elon College students is Florida. During Spring Break, hundreds of students decide to relax in the sun with friends. Groups of students make plans early so they can stay together. Some will drive 17 hours to vacation at the Florida Keys. It's the perfect place for students to forget about school and "go a little crazy."

Besides the beaches, Disney World is another big attraction of Florida. And everyone knows, you're never too old to get your picture taken with Mickey!

bikes

A popular form of transportation at college is a bike. Pedal power is the means to get to class, visit friends and even exercise. Having a bike at school makes life a lot more convenient for students. And this year, Physical Plant added more bike racks on campus to allow for more "parking space" near classrooms.

bart

Bart Simpson is one of the biggest crazes of the year. Many students make a point to be in their rooms at 8 p.m. on Sunday to watch a half an hour of comedy. On the other hand, there are those who believe this cartoon sitcom is rude and obnoxious. How about you?

Although many try to avoid it, students always end up doing the dreadful deed — studying. Whether it's for a test, paper, or just to catch up in class, studying is a must. While some prefer to study in their dorm rooms, others find this impossible to do with all the noise. In which case, these students make their way to a classroom, the learning resources center or library.

Most students may not be prepared for all the studying college requires, but they learn fast. They also learn that college can be the most fun years of their lives.

In Memory of Robert Rodgers Miskelly

On the afternoon of November 13, 1990, Robert R. Miskelly's life tragically ended in a motorcycle accident. A memorial service was held in the Elon College Community Church on November 15. Faculty members and several of Miskelly's close friends spoke words of remembrance and the following adaptation from Leo Buscaglia's *Living, Loving, and Learning* was read in unison:

Each day I shall try to learn something new about the world I live in, about me and about you, so that I may experience all things as if they have been newly born.

Each day I shall remember to communicate my joy as well as my sorrow, so that we may know each other more completely. Each day I will remind myself to listen to you and try to hear your point of view. I will try to discover the way to give you mine, remembering that we are both growing and changing in a hundred different ways.

Each day I will remind myself that we are human beings, not perfect and not demanding perfection of one another.

Each day I shall remind myself to reach out and touch my world gently and embrace my world with love and gratitude. Each day I shall try to accept the sacred gift that I am loved. Amen.

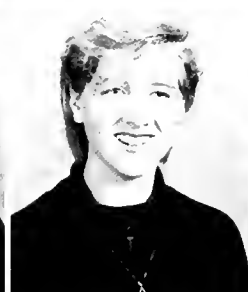

A number of students traveled to New Jersey for Miskelly's funeral and witnessed the number of lives that were touched by his short but full life. "Rob, you will be missed by your family and friends, but we know you are in God's loving hands."

Elon has a tradition of excellence in athletics. Students here have a certain pride in their school and its athletic potential which is evident at athletic events throughout the year, and in the general attitude of the school. Many fine athletes have graduated from Elon and made a difference in the professional world of sports.

Some of the year's highlights include the NAIA District Tournament victory by the men's tennis team, two students left Elon and signed with national baseball teams, the quarterback of the football team is a recruit from Clemson, and Roland Thornqvist, a Swedish exchange student in his freshman year strengthened the tennis

team with his superb ability. Not only the tennis but the golf team was district and conference champions this year, the tennis team winning the national championship as well. Go Elon men's tennis and golf!!

Soccer is strong this year, especially the girls team, and the basketball season is a popular social event for the entire school and community. The Homecoming football game is the most popular football game of the season, and ironically it was the only home game of the season. Intramurals offer the non-collegiate athlete a chance to participate in sports and meet all types of people.

Elon's facilities are excellent. They

include a baseball stadium and soccer field, and a new 12-court lighted tennis center. Other facilities include a track, heated swimming pool, dance studio, two weight rooms and a 3400-seat gymnasium. The new tennis center has been ranked by **Tennis Industry** magazine as one of the ten finest tennis facilities in the country.

School spirit is an essential factor in any sports event. It is so important for students and faculty to come out and support our athletes. It is vital to the morale and even success of the team. The more students get involved and show their support, the better our athletic program will be. So get out there and show Elon your support!

batter's Up

The Elon College Baseball team came off a very successful 1990 season, achieving a record of 40-9 and finishing first in the conference, first in the district and fifth nationally.

Coming into the season, however, the team had a new head coach, Mike Harden. Harden had been an assistant coach for Elon baseball many years before. The departing coach, Rick Jones, had taken a job as pitching instructor at Georgia Tech in Atlanta.

"Coach Harden is more laid-back," says second baseman Darrell Humbles. "He lets you do what you have to do to get the job done. Coach Jones stayed on you. Coach Harden is more of a player's coach."

Humbles meant nothing against either coach Jones or coach Harden. They both have different coaching styles that they have selected to use. Both styles have shown to be effective.

The two coaches may be different but Coach Harden says the attitude in the club house is still the same as it has been — enthusiasm.

"It's a very wholesome atmosphere. The young guys are being accepted more and more every day and becoming more and more comfortable with the older players. The older players have been very responsive to the young guys. I see our club coming closer and closer every day."

The Fighting Christian's attitude has paid off. Catcher Mike Kennedy was considered so talented at his position, he was elected All-Conference, All-District, and All-American. He was also drafted by the Oakland Athletics and now plays in their organization.

Kennedy was not the only player to make it to a national league team. Scott Miller is now playing with the Toronto Blue Jays.

The team had many outstanding players that stood out. Penoy Santos stole 24 bases in 49 games and was caught only six times.

As a team, the Fighting Christians batted .301 and had an earned run average of 2.50.

Elon's softball team displayed great techniques during their first season of fast pitch softball. Transition creates chaos when it involves a team of women trying their best to reshape old skills and habits. Pulling through an unsteady period the Fighting Christians ended their season by winning the NAIA District 26 Championship in Wilmington, Delaware with a record of 8-2.

The ladies were led by their first fast pitcher, Donna Leigh. Leigh also was the MVP, all district player, and all conference player. Another outstanding player was the shortstop MaryAnne Arthur. Versatility and quickness made her an all conference player as well.

The 1990 season came out even by finishing with an overall record of 19-17. The SAC record ended in an 8-4 victory. Coach Sue Leonard had this to say about their team, "Our team did far better than our expectations for our first year of fast pitch softball and I look forward to another rewarding year."

Love times two

The Elon Men's Tennis team truly came out on top this year. Their determination, individuality, and effort combined rewarded the team with the 1990 NAIA National Championship title. "This was an outstanding group of boys," commented Head Coach Tom Parham, who was named NAIA National Coach of the Year.

The team was led by freshman Roland Thornqvist of Stockholm, Sweden, who ended his season 37-0. Senior Stefan Hager, also from Sweden, earned the first Team All-American honors in singles. Together these two elite players earned the National doubles championship.

The team placed three members on the NAIA All-American team, including Roland Thornqvist, Mike Leonard, and Stefan Hager. Additional victories put team members Craig Stone and

Billy Scott at the number three doubles spot. "Another key factor in the season's success was the player's attitudes towards each other as well as on the court. The team was really close and always stuck beside one another," commented Craig Stone.

The Women's Tennis team also had an overall winning season, finishing second in the conference. The #1 position in doubles was led by Coleen Kirk teamed with Amy Richardson. Mary Henson teamed with Kathy Myers finished at the number two position.

This year the team had an opportunity to play several division I and II schools head to head. Over Spring Break, the team had a tournament in Hilton Head.

a learning season

The Elon College Fighting Christians improved their football record from a year ago to 5-6 this year. Players, coaches, and fans know, however, that the team is still in the rebuilding process.

The first season was a learning one. Leon Hart had become the head coach after being the assistant at Eastern Kentucky since 1976. Also, the squad was mostly made up of freshmen who had come from winning high school football programs.

"Last year was an adjustment season," explained Coach Hart. "This season was totally different from that. I think this team was much more determined than last year."

"Rebuilding a program isn't something that you can expect to turn around overnight," continued Coach Hart, "especially when you have a team

dominated by freshmen and sophomores."

"It was going to be kind of hard for us to be contenders in the conference because of the young players," added sophomore Roosevelt Brooks, who rushed for 96 yards in the first seven games this year. "It was something that we had to overcome, we still played hard. We just didn't come out on top as much as we'd like to."

The Fighting Christians do have a knack for playing hard and most importantly, together.

"You've got to be strong both sides of the ball if you want to contend for league championships," Coach Hart explained. "There are times when your offense is going to win games and times when your defense is going to win for you. We've got to be a balanced team and 'team' is the key word."

Quarterback Heath Hewett yells out the plays before receiving the hiked ball.

Running back Elliot Armstrong tries to fake out the opponent.

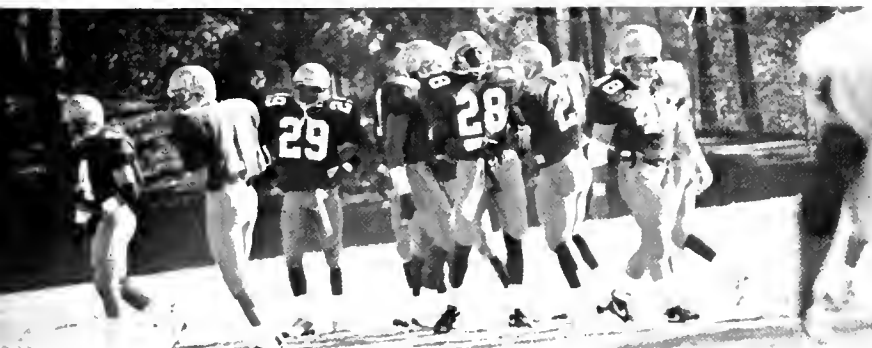

Wide receiver Robbie Burnette jumps up and catches the pass just before the defense makes the tackle.

Troy Ford kicks the field goal as Tim Colchin holds the ball.

Elon's up by 8... now it's tied ... Elon's down by 8... it's tied up again ... there are only 5 seconds left ... here comes Elworth Smith with a slam dunk and an Elon victory. This is the familiar scenario that Elon spectators saw throughout the remarkable season.

After losing their best player last year, the team had to rebuild itself. Even with their inexperience, the team pulled together with determination and came up with a very successful record. With 18 straight home victories and a 10-game winning streak, Fighting Christians have shown they carry a lot of talent within the team.

Coach Bob Burton said the story of this team was, "We had to rebuild and they've surprisingly done a very good job."

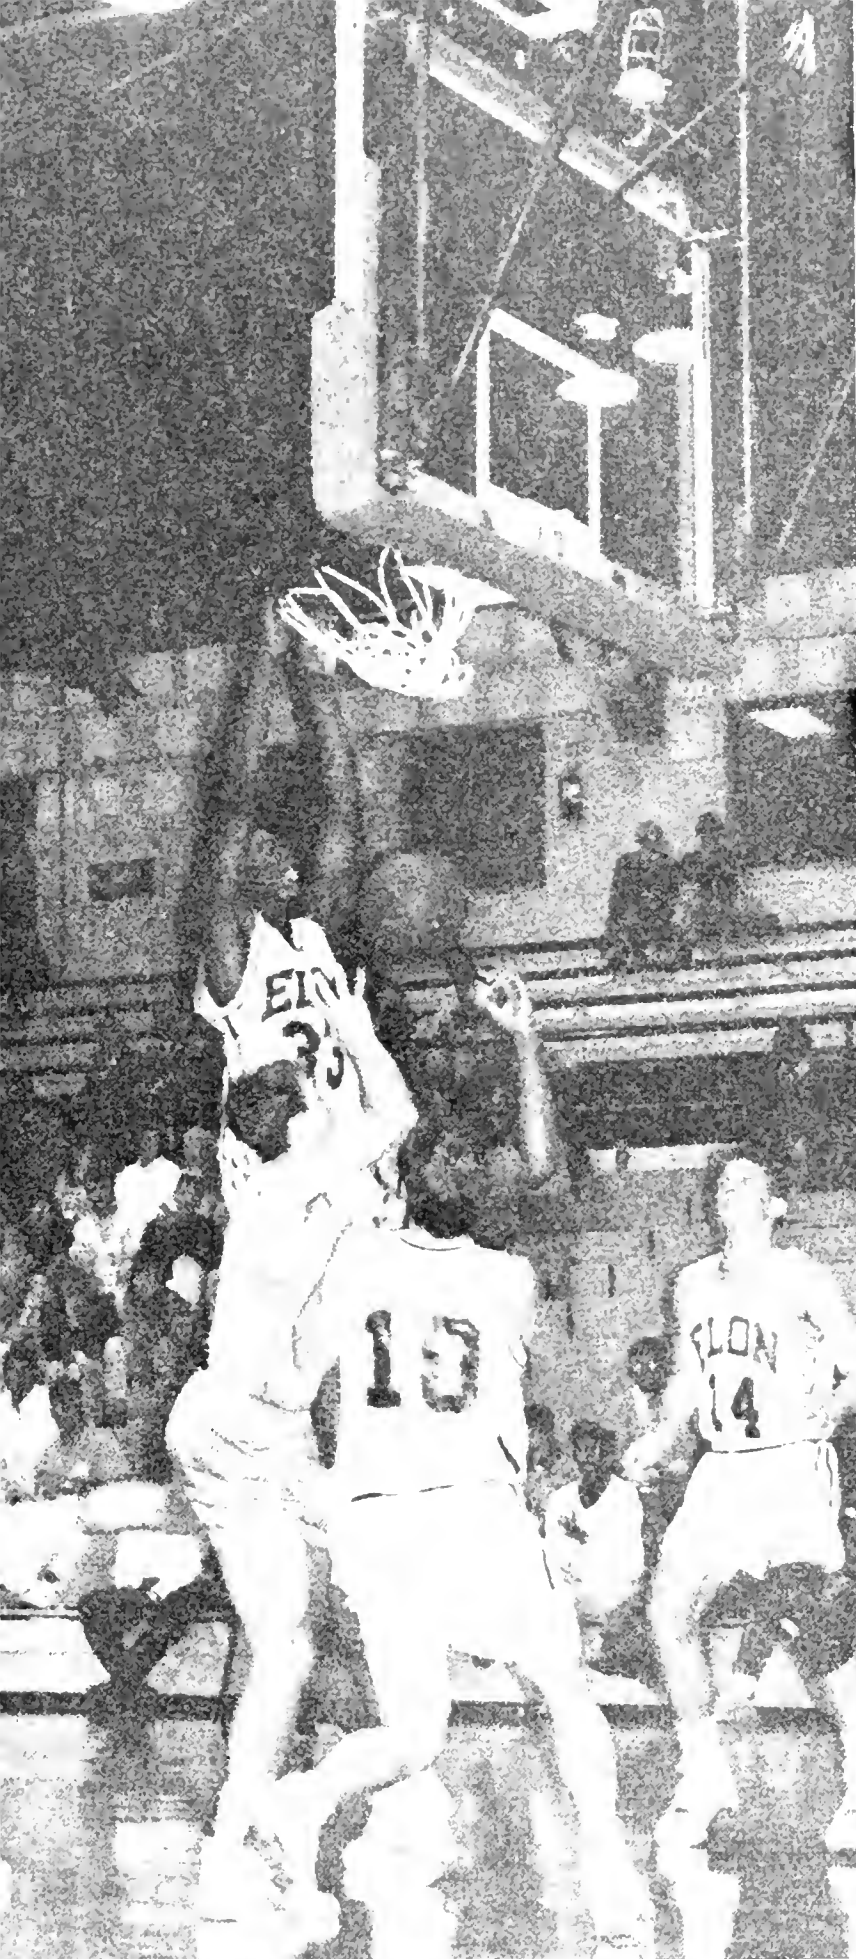

Since Elon moved to a NCAA Div. II team, they had a more difficult schedule. This did not stop them, however. From the broken backboard at Lenoir-Rhyne to the rematch that ended in a miraculous comeback from 17 down, the Fighting Christians have proven they are a strong team.

Although many players were hurt toward the end of the season and the record fell, the year was a positive and very successful one.

*d*esire to win

The Women's Basketball team, after struggling before Christmas, made a tremendous comeback that led to many victories at home. Although winning on the road was difficult, the young team learned to work together to achieve their goals.

Coach Jackie Meyers stated, "There have been few minor problems with the young team, but they've put individual thoughts behind them and built a very good team unity."

With co-captains Monica Tate and Jana Siler leading the team, the girls gained a desire to win. The team has the talent and Coach Meyers believes, "They just need to put the talent and the desire together."

Spirits rose as the highlight of the season came on February 2nd. The Fighting Christians hosted Wingate, who was # 1 in the conference, and they came up with a tremendous victory over them. This game was a reminder to the women that they have the talent to win and gave them that desire which was so desperately needed.

Overall, the season was a good one. "The team peaked at the right time and I looked forward to a top spot in the conference."

Elon's men's soccer team had a year of ups and downs but ended up with some key victories that led to an overall record of 8-10.

The first half of the season brought some disappointment but that didn't stop Marcus Ford's advancement to third team All-American.

The last part of the season was much better. Coach Rob Brewer commented, "The second half of the season was much more successful due to the younger players."

The young team finished fifth in their division and ended up with a victory over

the #4 team in the semi-finals.

Although the season wasn't as successful as was hoped, the team pulled together at the end of the season and achieved those key victories. Since the team is made up of many young and less experienced players, the future of the team is very hopeful.

The Women's soccer team along with Coach Rob Brewer was very excited and optimistic about the year. The team was filled with a great recruiting class and many returning starters. They came together and progressed to a beneficial season.

There were many key players this year who contributed to the success of the team. Chris Greenspan who had the most points for the season showed remarkable talent. Tara Houston led with the highest amount of goals with 15. Goalie Heather Kline had an outstanding season with 76 saves and only 14 goals allowed.

Along with their hard work and dedication, these talented women had some fun and crazy times. One player listed a few, "scratch-n-sniff, sportin' it, killer, take it west, DAVE, and where's the water?"

Their season ended very successfully. The team looks forward to many future successes.

Behind the excitement of school spirit are the Elon cheerleaders. The job of the cheerleaders is to promote school spirit and help the crowd get excited for the game ahead.

The cheerleaders begin practicing in August. They spend countless hours preparing for the football and basketball seasons. Come rain or shine they always are there to cheer on the Fighting Christians and show their school support.

Besides cheering at the games, the cheerleaders have participated in many camps. At these camps, the group learned many new cheers and chants, as well as new stunts. But learning was only half of it, the cheerleaders had fun hanging out together.

Spring captain Dione Ivey summed it up by saying, "Being a cheerleader takes talent, hard work, and a lot of time, but all the fun we have makes it all worth it."

Spike it!

The 1990 Volleyball team completed the season with the best record in ten years with 24 victories. These ladies practiced everyday resulting in several complementing placements. The team added to their collection two third place titles at the Francis Marian Tournament and Regional All Tournament. More impressive, the team volleyed their way to a second place victory at the South Atlantic Tournament. Continuous work proved rewarding at the Merryville Tournament where the ladies took the title of Pool B Champions.

The most valuable player of the season was the setter, Lynn Hefty. She had the lead in serves with 52 aces as well as the lead in assists and kills. Hefty made all NAI District 26, while impressing her teammates with her skills. In defense, Jill Taylor led the team, while Sue Taylor led the team in spikes. Her total kills amounted to 226. Cheryl Spivey, a sophomore hitter, had the most digs of 430.

The strength and coordination of the 1990 Volleyball team combined equally creating a victorious year. Coach Sue Leonard was greatly enthused with her team and is excited about the next year.

Tracy Herring bombs the ball over the net and over her opponents' heads.

Front row: Karrie Danhof (manager), Fae Foster, Lynn Hefty, Jill Taylor, Anne Mahanes (manager); Back row: Coach Sue Leonard, Cheryl Spivey, Candice Snider, Sue Taylor, Velma Degree, Angie Padon, Tracy Herring.

Elon College arts and academics. These are important programs in a liberal arts institution. Concerning academics, Elon students are given individual attention. The student/teacher ratio is excellent, and, due to class sizes, students are able to contribute to class discussions, ask relevant questions, and be a direct influence in their courses and overall education. Elon offers a broad variety of majors and courses, and one of the most popular programs the college offers is the study abroad program. For either Winter Term or an entire semester, courses in London, Costa Rica, Hawaii, Germany, Mexico, France, and Malawi are offered. This program attracts a lot of students and offers a culturally well-rounded education to all students.

Elon prides itself in the quality of its academics. Professors here are moti-

vated individuals, enthused in what they are teaching and trying to establish a positive attitude in the classroom. Instead of classes consisting of lectures only, classes are able to take trips, have one-on-one class discussions, meet in small study groups, and meet individually with professors. Students can even discuss a problem or just chat with a professor over lunch at The Grill. You get to really know your professors and they get to know you as well. This adds so much to your overall education at Elon.

The Arts. Within the past five years, the new Fine Arts Building was established. In this newly built part of campus, art classes, ceramic classes, band rehearsals, communications courses, music classes, and video and audio classes are conducted. All throughout the year, there are oppor-

tunities to hear nationally acclaimed speakers and performing artists. Past guest speakers have included former president Jimmy Carter, former Senator Eugene McCarthy, and former Atlanta Mayor Andrew Young. Just this year, U.S. Senate representative Harvey Gantt spoke at a fall college coffee. Past musicals include South Pacific, TinTypes, The Diary of Anne Frank and Man of La Mancha. Students in any major can participate in Elon's music groups such as the Concert Band, community orchestra, Pep Band and Concert Choir. Whether you are inclined towards the arts or not, there are plenty of opportunities for you to find out.

Elon's Arts and Academics. Challenging, exciting, interesting, and above all — geared towards you.

At Elon College, we are taught all there is to learn about school and life. We learn about success in the classroom and in the real world. For many of us, this is our first time being away from home and the adjustment can be hard. Without friends and phone calls we wouldn't know what to do. But when friends are not around, we know of one other group of people who help to make the adjustment easier: the faculty and staff. They are the people we see from 8 a.m. to 8 p.m. every day. They have taught us that **WE HAVE THE RIGHT TO EXCEL!**

ACADEMICS: Reading, Writing and Arithmetic are the goals for this worker.

ART: Elon students learn that classroom knowledge isn't all that Elon has to offer.

LONDON, WHALES SCOTLAND and EUROPE — all at your fingertips!! It's Elon in London!! These students have taken advantage of one of the most important classes Elon College has to offer. A semester in London offers students a real life experience that is unforgettable. Not only do you study in the city of London, but you have the chance to see all of Europe. Many students take advantage of that chance to travel around Europe and they say, "I wouldn't have done anything differently, except maybe go to Scandinavia." You've Got The Right To Travel — Why ask Why? Just do it!

Vance Dunn checks to see where his classes will be located for the new semester. He was smart to get there early — to avoid the crowd.

Everybody has their own way of getting their work done. It's easy to just sit down and study your stuff, but where do you do it? All over!!! Elon students can be found around campus non-stop doing what they do best — studying. From quiet halls in the Fine Arts Center, to noisy West Lounge. The simple old Library, to the music filled dorm rooms, a quiet little spot under a tree, to Scott Plaza fountain during the change in classes, it's just a question of what you do and where you do it.

Kelly Hughes, Trey Siner, and Kati Mafko work diligently on their tests.

Regina Isenhour, Susan Sizemore, and Belamy Patrick take time out to reflect on their trip.

It was a Winter Term full of excitement for the freshmen and junior Teaching Fellows. As part of the Teaching Fellows program, the freshmen and junior Teaching Fellows traveled up and down the East Coast, visiting major historical cities from the Civil War and Revolutionary War.

Their first stop was Colonial Williamsburg, Virginia. From Virginia, they traveled to Baltimore, Maryland a major port in the north. After Baltimore, they headed to Philadelphia, Pennsylvania. Philadelphia was the cite of many of the first meetings to begin a Revolution against the British. Their next stop came in Mystic, Connecticut. From Connecticut, they headed north to Boston and Cambridge, Massachusetts, where Harvard, the oldest university in the United States is located. After Massachusetts, the group went to West Point Military Academy. Next, they headed back down South stopping at Gettysburg, Pennsylvania and Charlottesville, Virginia before returning to Elon.

In all, their trip was fun and educational. Although, as the freshmen and juniors returned home, they bid a fond farewell to the sophomore Teaching Fellows who will spend their Spring Semester in London.

The Harvey Gantt/Jesse Helms senatorial election was probably the most brutal election North Carolina has seen in years. Citizens could not watch television for 5 minutes without seeing a Harvey Gantt and/or Jesse Helms commercial. The students at Elon College got into the debate as well by holding a forum debate where the Young Democrats and College Republicans battled it out before the actual election. Both sides were represented by very knowledgeable participants. For the Young Democrats, on the left, were John Denning, April Craft, and Carter Smith. For the College Republicans, on the right, were Eric Johnson, Jennifer Lynch, and Eric Palmer. It was a debate well fought by the two clubs, where everybody won by the knowledge they gained about the two candidates.

WAR IN THE GULF

DESERT STORM — Day 23:

THE CULT OF SADDAM

TERRORISM

It was January 16, 1991 when the United States led its first of many air attacks against Iraq. Operation Desert Storm was its name. The first counter attack from Iraq came two days later, headed toward Israel. The war in the gulf had become a war against people of all types. The "Westerners" have said to have no reason for protecting the Arab countries from Iraq, yet Israel is said to be a major cause for why the war continues. If Israel would stop the fighting on its West Bank, it would help solve some of the problems. But for now, everyone must worry about the man in charge, Saddam Hussein, and what he will do with his chemical and nuclear strategic capabilities.

As result of the United States' involvement in the Middle East, several of Elon's students weren't here for Spring Semester. They're among the many thousands fighting for Kuwait. LCPL Barry K. Meeks, LCPL Michael Hoefler, SPC Randy C. Lambert, and Travis B. Baker are among those who are receiving letters from Elon students, faculty, and staff. And Elon alumni, also on the mailing list, include 2nd Lt. Jimmy Christmas and SP4 Jeff Squire.

The photograph and headlines shown here are among the many seen on our daily newspapers as the war continued.

World News

In the early morning hours of August 2, following negotiations and promises by Iraq's dictator, Saddam Hussein, not to use force, a powerful Iraqi army invaded Kuwait. Within three days, 120,000 Iraqi troops with 850 tanks had poured into Kuwait. The United States wasted no time in answering the aggression. Saddam Hussein, president and iron-fisted ruler of Iraq, invaded Kuwait in August and most of the world became his enemy.

The United States reacted immediately to the invasion, building up a U.S. force of well over 400,000 troops in neighboring Saudi Arabia. Other nations also sent troops and financial support. And the United Nations voted for an economic embargo against Iraq. Pictured here are U.S. tanks and troops in the Persian Gulf area.

Nelson Mandela was given a life sentence in 1962 for plotting to overthrow the South African government. He became one of the world's most influential prisoners. But in February, 1990, at the age of 71, Nelson Mandela was released after lengthy negotiations with President F.W. de Klerk.

It was a time of change in Eastern Europe. Communism no longer ruled that part of the world. Demonstrators demanding an end to Communist Party domination lit candles and placed flowers on blood-stained sidewalks where police attacked protesters in the largest such rally in 20 years.

U.S. President George Bush and President Mikhail Gorbachev of the Soviet Union met several times during 1990 — on economic matters, on nuclear matters and on the matter of a possible war in the Persian Gulf. (Both leaders joined together in condemning Iraq's invasion of Kuwait). The Cold War between the two super powers has ended and an era of cooperation has begun.

U.S. News

There she is, Miss America. Marjorie Judith Vincent, Miss Illinois, is a pianist of Haitian descent who wants to practice international law. Miss

America 1991 is 25-years-old and is a third-year law student at Duke University who graduated from DePaul University in 1988 with a degree in music.

Ivana and Donald Trump may look the picture of marital and material bliss, but don't believe it. Trump's millions were slowly eroded in 1990 to the edge of financial disaster. And he and Ivana, his wife of 13 years, separated after Trump was romantically linked with actress/model Marla Maples. 'The Donald' moved out of their 50-room triplex in New York's Trump Tower and talk of divorce has rumored all year.

Jim Henson was a puppeteer with an enormous following. On May 16, 1990, at the age of 53, he died from a severe case of pneumonia. During his career, he created an endearing menagerie of creatures, characters of timeless appeal. In 1969 Henson's — Kermit, Big

Bird and Cookie Monster — first appeared on public TV's Sesame Street. Then, in 1976, The Muppet Show was born. His creations will live forever — Miss Piggy, Fozzie Bear, Gonzo, Bert and Ernie and many, many others.

Music

The B-52's weren't doing much since one of the members of the group died in 1985. The group was looking for a producer who was sympathetic to goofy dance music. The album "Cosmic Thing" was born. It was a triple platinum hit.

The three guys who call themselves Bell Biv DeVoe rolled into the music scene this year in a big way. Their album "Poison" hit the charts near the top and hasn't moved from there. And their single "Do Me" is a best-seller.

Sinéad O'Connor is something else. The 23-year-old Irish singer with her shaved head and immense eyes has been topping the charts all year. Her latest album is "I Do Not Want What I Haven't Got." And to top off her year of success, she won the best video of the year by a female at the seventh annual MTV Music Video Awards. She won for her avant-grade "Nothing Compares 2 U."

Rock superstar Phil Collins started out as a drummer in the hit British group Genesis. He revived the group's career in 1976 by stepping forward as vocalist and then he became a major rock soloist. And he still is. His latest album, "... But Seriously," has been on the charts for dozens of weeks and his single, "Something Happened on the Way to Heaven," will be around for many more weeks.

Janet Jackson skyrocketed to the top in 1990. She hit it big with "Rhythm Nation 1814". Born in the mid-1960s in Gary, Indiana, five of her brothers had risen to nationwide fame as the Jackson Five. It didn't take her long to find her place in the entertainment world. In her late teens she joined the cast of the syndicated television series "Fame" and the rest is history.

Sports

In August, 1990, a 34-year-old football player named Joe Montana made history. He negotiated one of the richest contracts in NFL history with the San Francisco 49ers. He would be paid \$13 million over four years to play football. Montana led the 49ers to their fourth Super Bowl victory in the previous season. He has been called the greatest quarterback in the history of football. Now, he will be paid more than any quarterback in the history of football. Shown here leading the 49ers to another victory, Montana has become the standard by which all other quarterbacks are measured.

Nolan Ryan can still put plenty of heat on his fastball. And at the old age of 43 — in a game dominated by guys half his age — that says something about his lasting abilities. He holds more than 40 major league records, in-

cluding most no-hitters, most one-hitters and most strikeouts. He got his name in the record books while playing for the New York Mets, California Angels, Houston Astros and Texas Rangers.

Controversy

When your hot you're hot, and the golden girl Madonna has been hot for a long time. The actress, singer and 'material girl' has had hit after hit on the charts. As the 1990-91 school year began, Madonna's latest album, "I'm Breathless" was high on the list, and over on the Top 100 Singles list, "Hanky Panky" continued its appearance.

2-Live Crew is a group that made hit songs and big headlines this year. The police in Florida considered their album "As Nasty As You Wanna Be" to be obscene, and a record store owner was found guilty of selling it. And, it seems that their legal problems aren't over yet. They just keep moving along.

Filmmaker Spike Lee says he is looking for the day when he no longer has to sell himself to the movie industry like some new kid on the block. "Each time out is another struggle, another battle, another war," he says. But he seems to be winning the war. His second movie

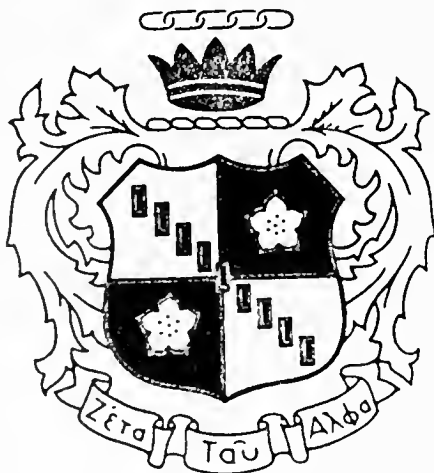

"She's Gotta Have It", won him the Cannes Film Festival prize for best new director. His third, "School Daze," was a huge money-maker. "Do The Right Thing" was received with rave reviews. The 33-year-old Lee is on a roll. Watch out Cecil B. de Mille.

Regina Isenhour and her boyfriend, Michael Henning, spend some quality time together on his visit to Elon.

Live Laugh & Love

Live: v. To be alive; exist. To reside; dwell. Enjoy life to the utmost.

Laugh: v. To express amusement, satisfaction, merriment or pleasure with a smile and in articulate sounds; to be merry.

Love: n. Intense affection for another person; attachment to another person based on regard or shared experiences or interests.

No matter what Webster says about living, laughing, and loving; Noone can personify these three words like Elon students can. There seems to be a specific type of people here at Elon and each has their own definition of these words, but whatever they may be, we all stand as one.

Living at Elon may be gaining the "freshmen fifteen" from the convenience of delivery from Dominos, not having 8 o'clock classes, and some may even say these are the best 4, 5, well okay 6 years of your life. Living at Elon also contains the elements of learning how to live with a person from North Carolina when you are from the heart of the city in places like Washington or New Jersey. Whatever living is to each person, everyone knows how to do it and do it well.

Have you ever walked down a hallway in a dormitory and heard the same familiar sounds that each dorm shares? Well, if you are wondering what that sound is, it is a thing called laughter. Laughter is something that warms the hearts of maybe everyone here, but it is also the remedy of pain and anger. Have you ever seen your crush start talking to another person just when you thought you had them interested in you? Well guess what your friends do when that happens? They will sit there and say anything about that other person just to make you laugh and feel better. There is one thing that everyone does not think about and that is laughter is essential to life and love. Elon is definitely filled with laughter whether it is about an event, the school, or a joke, we all include laughing somewhere in our busy schedules. So, for all of you out there, it takes more muscles to frown than it does to smile.

Yes, it is true, love is a zero score in tennis, but that does not fit into each person as a different love that we all share here. When you first leave home and the security behind, you form a new family with your friends at Elon. Although your friends do not give you their credit cards like your parents do, they seem to always be there whenever you need them. You grow to trust in your friends and build a special bond with them, that will last a lifetime. You learn love in a different form when you grow together with a stranger, later to be the best friend in the world. Also, you take pride in the school itself and learn to love Elon.

Living, laughing, and loving are three very main ingredients to make the whole idea of college work for you. We all seem to know how to do it well, and practice it everyday.

Laughing is a good break from the stress of studying!

This is an example of laughing while at work — and why not, you should enjoy yourself in everything you do.

Some students show that a room is not the only place to relax and kick back your heels.

Good-byes aren't forever . . .

WE MADE EACH OTHER STRONG

My friend, I do not wish for you to
go.

But life will not wait for us, I know.
Don't look back and see the tears
streaking down my face.

In my heart you'll never be replaced.

Hold tight to today and it will take
you to tomorrow.

Hold your head high and you will see
that the sorrow

Will soon fade with a dream that is
yet to be.

We're going to be the best of all, just
you wait and see!

Take me with you when you go. I'll
stay forever in your heart.

That way we'll never have to say we
lost a part of ourselves.

You're just the part of me I can't let
go.

And I thank God you are a friend I'll
always know.

So thank you for growing up with me,
my friend.

Parting now, we'll reach for the stars
and see it's not an end,

But the beginning of a life we've
dreamt of for so long.

Now it's time to show the
world—we've made each other
strong!

Friendship leaves smiles as shown by buddies Melanie Chaplin and Heather Waters.

Showing how much their friendship means, Kristi Kienzle and Kristen Klutz share a hug.

Sharing one giant bear hug are friends Pete Rosati, Emily Chandler, and Paul Stephan.

... friends are!

Friends are forever. One of the most important parts of your college years is the quality of relationships you make. Your college friends are your friends for life. So much of your time and effort is put into your friends — they know your strengths, weaknesses, dreams, goals, faults and know all about what makes you tick. Sometimes they seem more important than family and you think, "What will I do without them after graduation?"

Even though you will soon graduate and go your separate ways, your friends will always hold a special place in your heart

and in your spirit go wherever you go. These people will be in your wedding, be godparents and you will go on family vacations with them. Isn't that a scary thought?

Don't ever forget your friends and always make a conscious effort to keep in touch over the years. For just as all of your classes, professors and your overall education have prepared you to take on the future, the other half of your development has been because of your friends. They are an inherent part of you and your college years. Friends are forever ...
